LB 190

Johnson has guests in the north balcony. Their teacher is accompanied by 22 fourth graders and they are from Shelby Elementary School. If you students would stand, we could see who you are. Thank you for coming down to visit us today. We now proceed to General File for LB 190.

CLERK: Mr. President, LB 190 was a bill introduced by Senator Chronister and a number of members. (Read title.) It was introduced in January of last year. Mr. President, the bill was reported to General File last year. On April 9 of last year the committee amendments lost. There was a motion to indefinitely postpone which prevailed. There were other amendments offered. There was a motion to reconsider the vote by Senators Johnson and Wesely that was successful in April of last year, Mr. President. I do have a series of amendments pending to the bill.

PRESIDENT: Very well, Senator Chronister, do you want to lay a foundation for us, please, on the motion to advance?

SENATOR CHRONISTER: Yes, Mr. President. Thank you, Mr. President, Mr. Colleagues, to begin with we can forget about cigarette taxes and the creation of a future fund that was in the original LB 190 last year. My colleagues, Senator Lynch and Hoagland, join me in offering an amendment to LB 190 so that we may consider the issue of student financial aid which was one of the provisions of the original bill. The amendment, which is printed on page 1435 of your book, and also a copy was handed out to you a short time ago, strikes all the original Sections 1 to 4 and 6 to 13. We leave Section 5 and it reads thus. We insert the following words, "We will appropriate 1 million...

PRESIDENT: Senator Chronister, the Clerk asked me to inform you that we probably should lay a foundation for the bill but not to discuss your amendments because other amendments precede yours.

SENATOR CHRONISTER: Okay.

CLERK: Senator, I need to technically have...I have other amendments pending.

SENATOR CHRONISTER: Okay.

CLERK: Okay, before I get to yours...

SENATOR CHRONISTER: All right.
